REPORT.

The Rutson Hospital has afforded treatment to 211 patients during the year 1928. The number of patients for the previous year was 204.

The daily average number of patients was 11.6, as compared with 12 in 1927.

The average number of days per patient was 18.7; the average for 1927 was 22.

The Annual Statement of Accounts is presented herewith. A deficit of £125 19s. 5d. is shown on the General Account.

The Hospital has very greatly benefited by a most generous anonymous gift of £1,500. This sum was placed to the Capital Account and invested in 3½% Conversion Loan.

The Legacy of the late Captain W. H. Cooper-Horsfall has also been invested in 3½% Conversion Loan.

The cost of the extension of the hot water system, details of which were given in the 1927 Report, has been paid from the Capital Account.

The Committee wish to express their grateful thanks to all Subscribers and Donors and also to the Clergy and others who have devoted Congregational Collections for the benefit of the Hospital. The Committee wish also to sincerely thank the Hon. Chaplain, the Hon. Medical, Dental and Dispensing Staff, the Hon. Treasurer, and the District Correspondents. They are also most grateful to Miss Sheppard for her help during the holidays of the staff, to Mrs. Summers for her help on Pound Day, to Mr. F. Wilson for his assistance in carrying stretcher cases, to the Chapel Choirs who sing to patients on Sundays, and to all who have helped the Hospital in many ways during the year.

The Mile of Pennies is successfully continued.

A specially large number of gifts in kind and in money were received on Pound Day.

For these and for all other gifts in kind received during the year the Committee wish to again express their appreciation and thanks.

The list of the gifts will be found on page 18.

The Ladies' Aid Committee have supplied the Hospital with various gifts and have defrayed the cost of the mending of the linen, and their assistance is greatly appreciated.

The Committee record with great regret the death of Mr. C. Walker Tisdale, a member of the Committee and a generous supporter of the Hospital.

The District Hospital Associations continue to greatly assist the Hospital in respect of the cost of the treatment of patients.

Miss Osbourn, the Matron, and Miss Hirst continue most satisfactorily to carry out the Hospital work.

Four Non-pulmonary Tuberculosis patients are admitted for treatment at the Hospital.

The Tuberculosis Dispensary under the County Council is held each week in a room at the Hospital, and the North Riding Education Committee Children's Eye Clinic is held at the Hospital at intervals during the year.

Medical Officer's Annual Report.

This Hospital continues to do useful work and supplies the accommodation for which it is intended in a wonderful way, considering the population of the town. The amount of this work during the year, judging by the number of patients, is practically the same as during 1927, but it will be noticed the cases are of a more serious nature, as shewn by the increase in the medical and surgical cases and the diminution in the number of the maternity and dental cases.

The total patients admitted during the year number 200, against 204 for 1927; patients carried forward from 1927 number 11 as compared with 8 the previous year, which makes the totals practically the same, 212 and 211. The patients consisted of 42 medical, 126 surgical, 14 surgical tuberculosis, 2 maternity, and 16 dental cases for 1928; and 38 medical, 111 surgical, 10 surgical tuberculosis, 11 maternity, and 23 dental for 1927.

Of the surgical cases, 44 were accidents; these consisted of 25 road accidents, due to motor cars, motor cycles or cycles, and the remaining 19 due to other causes. It will be noticed more than half the accidents admitted are due to road accidents, and it is necessary to draw attention again to this state of affairs as by far the majority of these road users are not residents of this neighbourhood, and have no claim on the hospital funds. As these motorists can afford to run cars, or motor cycles, and do not see their way to compensate this, or any other hospital, for the expenses incurred, it is high time this was covered by compulsory insurance in some form.

The operations performed number 80, compared with 71—36 of these were major, and 44 minor operations.

The Surgical Tuberculosis cases under the Tuberculosis Officer of the County Council are 4 more than last year, the numbers being 14 against 10. This shews useful work is continuing in this department.

During my almost daily visits I have noticed the care and good order in which the Hospital is invariably kept, and the excellent way the patients are not only nursed and cared for, but the happy way they appear to appreciate all that is done for them. For this combination of efficiency and happiness we cannot too warmly thank the Matron and all the Staff, for their constant effort, and hard work, which is necessary to attain this end.

WILLIAM BAIGENT, M.D.,
Senior Medical Officer.

FORM OF LEGACY TO THE HOSPITAL.

I give and bequeath to the Treasurer for the time being, of the Rutson Hospital, established at Northallerton, the sum of Pounds, free of legacy duty, for the general purposes of the said Institution, to be paid within calendar months next after my death. And in order that the same legacy may be paid in full, I direct the same, together with the legacy duty thereon to be paid exclusively out of such part of my personal estate, as by the laws in force at my death, may be bequeathed for charitable purposes. And I declare that the receipt of the Treasurer for the time being of the said Institution shall be an effectual discharge for the said legacy.

Particular attention is requested to be paid to this Form of Bequest, on account of some recent unfortunate mistakes in Wills, by which Legacies to Charitable Institutions have been rendered void, in consequence of having been ordered to be raised or paid out of Freehold or Leasehold Estates, or out of Money secured on Mortgage of such, which is not permitted by law.

Presents of Old Linen or Cotton Cloth, and Books are very useful and acceptable to the Institution.
